The Word Generator provides a fun learning process that teaches children to recognize, learn, and use words in sentences. Your children will be surprised by the many's words and examples provided. With 4 different word generators to choose from, your children can learn the words they want! Download the free trial and let them explore! In this educational app you can enjoy this unique word game where you will learn to make friends with the alphabet.

Game Introduction: The alphabet is a collection of letters that use a total of 26 letters. Using these letters you can write any words you wish. Now you have the chance to learn all the letters and to enjoy a new word game. You can create your own word and learn new words.

Entering a word: After you have created a word you want to learn enter it in the correct box. If you want to check it, there is a checkbox. It will highlight the letters of the word and check if they are correct. If not, you can select the letter again or you can try to guess the correct letter yourself.

Word builder: The word builder lets you build words or phrases using two or more words at once. So for example you can create the word hello and then add words to it. So if you want to create a word with the letters in the box you can create a combination of two or more words.
